BEIGE

Ideal for

- ◆ Residential use
- ◆ Pedestrian use
- ◆ Patios, walkways, pool areas and more. Joints 1/2" to 6" wide

Features

- ◆ Traditional applications, Rain safe 24 hours after water activation
- ◆ Works above 59°F (15°C)
- ◆ Waterproof bag
- ◆ 15 Year Limited Warranty Coverage Packaging
- ◆ Retail Size: 50 lb (22.7 kg). Waterproof bags Helps Prevent
- ◆ Weed sprouting
- ◆ Damages caused by insects. Erosion due to climatic conditions

Quantity required depends on the shape and size of the stones as well as the width of the joints.

Gator Supersand

For joints up to 2" in traditional applications

Ideal for

- ◆ Residential use
- ◆ Traditional applications
- ◆ Concrete paver's, natural stones, wet cast products and clay paver's
- ◆ Sloped areas, pool areas, patios, walkways, driveways and much more

Features

- ◆ Traditional applications, Rain safe 15 minutes after water activation
- ◆ Works above 32°F (0°C)
- ◆ Waterproof bag
- ◆ 15 Year Limited Warranty
- ◆ Faster installation time

Our sealer is a 30% solids, styrene acrylic stabilized co-polymer, low-VOC, solvent-based, non-yellowing curing, sealing, hardening, dust proofing and water repellent compound that is tough, chemical resistant, and long lasting. The product is designed to protect and enhance exterior new and existing concrete, stamped, decorative and exposed aggregate concrete and architectural horizontal and vertical sections where a slip resistant, clear high gloss and shine is required. Our sealer also provides protection from the damaging effects of water penetration and staining. Our sealer features breathable technology which allows moisture vapor to pass through rather than becoming trapped, preventing whitening, peeling and flaking.

We recommend the sealer be applied 60 days after the pavers are installed. This gives time for the sand to cure and accept the sealer properly.

- To cure fresh exterior concrete where superior curing efficiency and non-yellowing performance are required
- Seal, harden, and dust proof existing concrete, particularly architectural or residential concrete exposed to freeze thaw or UV light
- Enhance color and provide uniform appearance of dry shake hardened floors and stamped concrete
- Allows freshly placed concrete to achieve maximum design strength and durability
- High solids, high gloss formula
- May be applied to damp surfaces without whitening or loss of adhesion
- Coated surfaces are easier to clean and maintain
- Excellent protection against staining or damage caused by exposure to alkalis, salts, cleaners and common industrial chemicals
- Reduces efflorescence, dusting and spalling
- Recoatable

**FEATURES**  
High Gloss Finish  
Vibrant color enhancement

**FEATURES**  
Low Gloss Finish  
Vibrant color enhancement

**GATOR HYBRID SEALERS**

Gator Hybrid Sealers are 100% pure high-grade acrylic used to seal concrete pavers. It penetrates deep into the concrete paver pores, reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.

**FEATURES**  
High Gloss  
No color enhancement

The fireplace is long-treasured gathering place for family and friends. It's where we celebrate holidays and special occasions. But getting a unique fireplace for your home-at a price you can afford-has always been a challenge. N&M Restoration has revolutionized the buying process, allowing clients to create dazzling one-of-a-kind fireplaces as unique as the people who will gather around them.

Quality, aesthetics, and functionality are at the heart of everything we do. Stunning masonry solutions, cutting-edge air movement technology, an extensive list of innovative add-ons, and a vast array of door styles and finishes will make your fireplace a true focal point in your home or property.

Regardless of which solution you choose, your friends will clamor to come to your house for the big game and you'll run out of pillows and blankets for the number of relatives that will conveniently choose to stay an extra night.

# CHOOSE YOUR OPTIONS
